Geraldine Marti
Typed or printed name of person mailing paper or fee)

Geraldine Marti
(Signature of person mailing paper or fee)

Each paper letter or communication relating to an international application during the international stage for which a date of filing is to be obtained as of the date of mailing must have its own certificate and the "Express Mail" label number as a part thereof or attached thereto. When, as here, the certification is presented on a separate sheet, that sheet must (1) be signed and (2) fully identify and be securely attached to the paper or fee it accompanies. Identification should include the serial number and filing date of the application as well as the type of paper being filed, e.g. complete application, specification and drawings, responses to rejection or refusal, notice of appeal, etc. If the serial number of the application is not known, the identification should include at least the name of the inventor(s) and the title of the invention.

The label number need not be placed on each page. It should, however, be placed on the first page of each separate document, such as, a new application, amendment, assignment, and transmittal letter or a fee, along with the certificate of mailing by "Express Mail". Although the label number may be on checks, such a practice is not required. In order not to deface formal drawings it is suggested that the label number be placed on the back of each formal drawing or the drawings be accompanied by a set of informal drawings on which the label number is placed.

RESPONSE TO DECISION ON PETITION UNDER 37 CFR 1.10

A copy of the Transmittal Letter to the United States Elected Office for the above application is attached. It shows an Express Mail date of November 16, 2001, and Mailing Label Number US 011019189 US.

The Transmittal was one of a number returned by the postal service and resubmitted December 6, 2001, pursuant to the Notice of November 20, 2001 and 1251 OG 55.

The Decision on Petition Under 37 CFR 1.10(c) and 1.83 of March 28, 2002, refuses the Transmittal the date of November 16, 2001, based on some confusion that seems to have arisen in the documents resubmitted and/or typographical errors therein. Therefore, the request for the Transmittal to be accorded the date of November 16, 2001, is renewed.

In support thereof, another copy of Mailing Label Number EV 011019189 US is attached to show its postal service receipt date of November 16, 2001.

It will thus be apparent that the Mailing Label Number on the Transmittal is inadvertently incorrect in that it should begin with an EV and not a US. The applicant submits that the 11 succeeding digits and its date adequately identify it.

However, in further support, a copy of the undersigned's mail log is attached to show association of the Transmittal with a Mailing Label Number beginning with EV by the PCT number PCT/RU99/00385 and inventors name (Alexandr I. Nikitin, et al) associated with it on the mail log. It is to be regretted that such association is marred by a further inadvertent typographical error in which the Mailing Label Number on the mail log becomes EV 011019139 US instead of EV 011019189 US.

Reconsideration and grant to the Transmittal of the date of November 16, 2001, is, therefore, requested.

Respectfully submitted,

William R. Evans
